de-linkage from antecedent; (@9)

punctuation.

Personal Narrative about a Teacher Who Is More than Just a Teacher

Teaching is the only profession that creates all other professions, for real, there is no better way to reward teachers for their efforts and dedication (@2) (@8) (@2). In high school, I realized that a good teacher could teach something to be remembered in one day, but a great teacher teaches something to be remembered forever. Great teachers need to be remembered forever since their efforts are immeasurable; they see students as individuals since every student has a different intelligence level, background, and story (@9) (@9). Although I have met different teachers in my education journey, I can say that my high school teacher of English was great since his immense efforts on me made me achieve my goal of graduating and attending college.

My teacher of English has influenced who I am today by helping me excel in high school (@2). It will be unimaginable if one day I forget his efforts in making me succeed, not only in his subject but also in my whole high school grade (@8) (@3) (@9) (@3). He taught me to work hard and consistently achieve my target through the endless advice and dedication he showed us in class (@8). At first, no one bothered calling me for corrections or guidance until our English teacher realized my poor performance and decided to help me in the journey of being a good performer, which seemed impossible (@3) (@2) (@2). He started following my progress in all subjects, and he would ensure that I never missed any class or submitted any

assignment (@1). He taught me to be persistent and believe in myself, which made me perceive every subject, even mathematics, which was not my thing to be simple (@2) (@9) (@2).

Furthermore, my English teacher was also a counselor, which influenced not only students but also teachers and our parents (@3). When he decided to change my performance level, he realized that working with me alone was not rewarding, so he decided to involve his fellow teachers. He did not want to help me succeed in English subject alone, but also in other subjects and other aspects of life like behavior, attitude, and personality (@2). Whenever he met with my teachers, he would ask how I progressed in my studies; for real, every teacher got inspired and drove attention to me (@0) (@2) (@9) (@2). One memorable day was when he decided to call a staff meeting for me; this was so overwhelming, and I could not believe he had done that for me (@8) (@8) (@1). From this day, I entirely changed my attitude and behavior, no one would find me in mistakes, and I started being top in my class (@2). At the end of my high school education, I emerged the top which was my best experience in life, and I joined college (@9) (@1) (@9) (@3).

To sum up, although I have met different teachers in my education journey, I can say that my high school teacher of English was great since his immense efforts on me made me achieve my goal of graduating and attending college (@3) (@9). I am grateful to him, words cannot explain my gratitude, but they can help me praise his efforts (@0). Succeeding and attending college are his efforts; he deserves to be ranked as the best teacher in my life (@2) (@3) (@9). I wish all teachers would be persistent, trustworthy, passionate, hardworking, motivators, and empathetic, just like him (@0) (@0).
